

DON'T FRET PET

DO you and your pet fret when you have to go on holidays and he or she can't come? You need Don't Fret Pet, a service that matches pets who have to stay home with pet minders from a database of thoroughly screened candidates. The pet, says manager Jenny Pratt, is ensured a loving minder, individual attention, maintenance of the pet's regular diet and lots of walkies from the minder's home. "And for those who would love to own a pet, it gives them the opportunity to care for a pet without the full-time responsibility," Jenny says. For more information or to join the database (only people potty about pets please!) phone 953 6112. How could you put a dog with a face like this in a kennel?
